

Delray Beach

DRUG TASK FORCE

PREVENTION
EDUCATION
COMMUNITY
SUPPORT

MISSION

The mission of the Delray Beach Drug Task Force is to provide community leadership and education on issues related to and resulting from Substance Use Disorder. We do so by maintaining a network and forum to discuss, advocate, and influence issues with regard to public safety, prevention, rehabilitation, and recovery.

XYLAZINE OVERDOSE

CALL 911

1

NARCAN

Though the effects of xylazine cannot be reversed using naloxone, xylazine often is used alongside opioids, which naloxone can reverse, so it should always be administered.

2

RESCUE BREATHS

Offer cardiovascular and respiratory support through rescue breathing or CPR.

3

SUPPORT

Stay with the person until EMS arrives.
